Notes to Interim Condensed Consolidated Financial Statements

January 31, 2022

Unaudited

1 Statutes of incorporation and nature of activities

The Company was incorporated under the Business Corporations Act (Québec) on March 27, 2015. On May 12, 2017, the Company was continued under the Canada Business Corporations Act (CBCA).

Its main activity is the development of botanical drugs. It is also involved in the development of value-added products for dermo-cosmetics and the distribution of pharmaceutical products through its subsidiary. It acquires drug and health product licenses. The Company has established a research effort focused towards the anticipation of new solutions in the medical sector as well as in the cosmetic sector. The Company's head office is located at 360, Rue des Entrepreneurs, Montmagny, Québec.

2 Material uncertainty related to going concern

These consolidated financial statements have been prepared on a going concern basis, which assumes that assets will be realized, and liabilities discharged in the normal course of business for the foreseeable future. Accordingly, these consolidated financial statements do not include any adjustments to reflect the possible future effects on the recoverability and classification of assets or on the discharge or classification of liabilities, should the Company be unable to continue its business in the normal course. It is committed to the development of botanical drugs and will have to obtain necessary funding to continue its operations until the commercialization phase of its products. The Company has incurred losses since its inception and anticipates that losses will continue for the foreseeable future. The Company's liquidities are limited considering its ongoing projects. Consequently, the Company's ability to continue as a going concern depends also on its ability to source from its pharmaceutical suppliers, its ability to distribute its products while generating positive cash flows and to obtain, in a timely matter, further financing to complete research and development projects, and to market its developed products, as to which no assurance can be given.

Further financing will continue to be required since it is impossible to estimate when the Company will achieve profitability. Management continues to negotiate further financing and different agreements that could create positive cash flows. (Note 21). The success of these negotiations is contingent on many factors outside the Company's control and its ability to successfully complete such financings and agreements is tinged with material uncertainty that may cast significant doubt on the Company's ability to continue as a going concern.

These consolidated financial statements do not reflect the adjustments to the carrying values of assets and liabilities and the reported expenses and statement of financial classifications that would be necessary if the Company were unable to realize its assets and settle its liabilities as a going concern in the normal course of operations. Such adjustments could be material.

3 Significant accounting policies

Declaration of compliance

The condensed consolidated interim financial statements have been prepared in accordance with International Accounting Standard 34, Interim Financial Reporting. As a result, certain information and notes normally included in annual financial statements prepared in accordance with IFRS have been omitted or summarized.

Devonian Health Group Inc.

Notes to Interim Condensed Consolidated Financial Statements

January 31, 2022

Unaudited

These interim financial statements should be read in conjunction with the annual consolidated financial statements for the years ended July 31, 2021, and July 31, 2020.

These condensed consolidated interim financial statements were adopted by the board of directors on March 30, 2022.

Basis of measurement

The consolidated financial statements have been prepared on the historical cost basis.

Functional and presentation currency

These consolidated financial statements are presented in Canadian dollars, which is the Company's functional currency.

Consolidation

These consolidated financial statements include the accounts of the Company and the accounts of its subsidiary, Altius Healthcare Inc., since February 1, 2018. Intercompany balances, income, expenses and cash flows are fully eliminated upon consolidation. When necessary, adjustments are made to the subsidiary's financial statements to align its accounting policies with those of the Company.

Distribution revenue recognition

Revenues from the distribution of pharmaceutical and cosmeceutical products are recognized when the terms of a contract with a client are fulfilled, i.e. when:

- the control of the product has been transferred to the client; and
- the product is received by the client or the transfer to the client of the ownership title occurs upon shipment.

After delivery, the client assumes obsolescence and loss risks with respect to such goods. Revenues are recognized according to the prices set in the contacts, less estimated sales rebates or returns.

Significant accounting policies

The interim condensed consolidated financial statements were based on the significant accounting policies described in the Company's consolidated financial statements for the year ended July 31, 2021.

Use of estimates and judgments

The preparation of condensed consolidated interim financial statements requires management to use judgment, make estimates and make assumptions that affect the application of accounting policies and the carrying value of assets, liabilities, income and expenses. Actual results could differ from estimated results. Significant accounting judgments and estimates applied by the Company are presented in the consolidated financial

statements for the year ended July 31, 2021 and remain unchanged. Estimates and underlying assumptions are reviewed regularly. Any revisions to accounting estimates are recognized in the period in which the estimates are revised and in future periods affected by such revisions.

Impairment test

Goodwill arising from the business combination is allocated to groups of cash-generating units (CGU) likely to benefit from the business combination. For the goodwill, there is one CGU and the impairment assessment was performed by comparing the Company's net assets to the market capitalization as at July 31, 2021, which is considered a Level 1 measurement.

The principal amount of the debentures (\$ 1,697,000 as at January 31, 2022 and July 31, 2021) will be convertible into units of the Company at a price of \$ 0.75 per unit and mature in July and August 2022. Each unit consists of one subordinate voting share in the capital of the Company and one subordinate voting share

Devonian Health Group Inc.

Notes to Interim Condensed Consolidated Financial Statements

Unaudited

purchase warrant. Each warrant will entitle the holder to acquire one subordinate voting share in the capital of the Company at a price of \$ 0.95 until 48 months after the closing date.

Interest on the convertible debentures is payable in units semi-annually based on an annual rate of 10%. Each unit will comprise one common share and one share purchase warrant having a four-year contractual life. The number of units to be issued will be calculated as follows according to the situation:

- If the subordinate voting shares comprised in the units are not subject to resale restrictions by a recognized stock exchange immediately following the issuance, the five-day average of the VWAP (volume-weighted average share price) immediately prior to the interest payment date will be applicable and will be used to settle the 10% interest. The exercise price of the warrants included in the units will be equal to the one obtained for the price of the shares used to settle the interest plus 30%.
- If the subordinate voting shares are subject to resale restrictions after they are issued, 90% of the five-day average of the VWAP immediately prior to the interest payment date will be applicable and the exercise price of the warrants will be equal to the one obtained for the price of the shares based on the conversion rate of interest plus 30%.

In its sole discretion, the Company may prepay any portion of the principal amount of the debentures with accrued and unpaid interest.

Convertible debentures are compound financial instruments within the meaning of IAS 32 and have a liability component and an embedded derivative component. The derivative is measured at fair value through profit or loss, and its fair value must be measured at each statement of financial position date. Subsequent changes in fair value are recognized in the consolidated statement of net loss and comprehensive loss. The change in fair value is included in finance costs (note 18).

The fair market value of the debentures was established according to the discounted cash flow method, and using the following average assumptions:

	January 31, 2022	July 31, 2021
Expected life	0.46 to .58 years	1 to 1.75 years
Risk-free interest rate	0.74%	0.43%
Expected volatility	60%	85%

The subordinate voting shares, exchangeable subordinate voting shares and multiple voting shares are handled as if they were of one and the same category.

The holders of subordinate voting shares and exchangeable subordinate voting shares are entitled to receive notice, and to attend and vote at all meetings of the shareholders, except those at which holders of a specific class are entitled to vote separately as a class under the CBCA. Each subordinate voting share and each exchangeable subordinate voting share confers the right to one vote per share.

The holders of multiple voting shares are entitled to receive notice and to attend and vote, at all meetings of the shareholders, except those at which holders of a specific class are entitled to vote separately as a class under the CBCA. Each multiple voting share confers the right to six votes per share. Each multiple voting share may, at any time, be exchanged for one subordinate voting share. In May 2027, ten years after the Qualifying Transaction, the authorized holder, without any further action, shall automatically be deemed to have exercised their right to exchange all of the multiple voting shares held by such holder, into fully paid and non-assessable subordinate voting shares of the Company, on a share for share basis.
